## A Safe Place to Start Again.

When families face crisis, having somewhere safe to turn can change everything. Through support from United Way of Northwest Georgia and partners like Northwest Georgia Family Crisis Center, families facing domestic violence can find safety, support, and a path forward. One mother arrived at the shelter after fleeing an abusive situation, with nowhere else to go. Separated from her children and facing overwhelming uncertainty, stability felt out of reach. But with counseling, safe housing, transportation, and support, she began rebuilding her life step by step. Today, she has regained custody of her four children and created a stable future for her family. Because of support like yours, families in crisis are met with hope, healing, and the opportunity to start again.
