

# YOUTH OPPORTUNITY

## Our future relies on the success of our children.

Imagine a child's face lighting up as they flip through their very own book, discovering new worlds, ideas, and dreams. Through United Way's Read United: Keep Kids Thriving program, we've partnered with Whitfield and Murray County public schools to distribute over 31,000 free books, helping children develop a love for reading and the skills they need to succeed. Reading at grade level by third grade makes a child four times more likely to graduate from high school. That's why United Way is laser-focused on early literacy.
